

MEMORANDUM FOR THE RECORD:

23 February 1954

SUBJECT: Security Desk Tray

STAT [] of the Physical Security Branch, called to inquire as to whether the development of the security desk tray and the brochure had been cleared with their office. I informed him that I had cleared with [] in the initial development stages but he had decided that they were not interested because it did not eliminate the necessity of complying with any existing security regulations. We did not clear the brochure with him because it contained this same statement, underlined. [] however, was concerned with the sentence preceding this statement (page 2) which states that^k the top is equipped with a pick-resistant key lock for protection when the user is momentarily away from his desk.^H He is afraid that this will be interpreted incorrectly.
